

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

May 2021

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in May were up 3.56% in Euros, up 4.80% in USD, and up 2.33% in GBP. For the year, Class A units are up 10.36% in Euros, up 9.88% in USD, and up 5.93% in GBP.

The fund's positive momentum continued during the month of May, bringing year-to-date returns to a double-digit outcome in Euros. There was no dominant theme during the month, with 18 of our 22 holdings making a positive contribution, supported by strong operational results seen across many stocks in the portfolio. Our exposure to Asian performed well as L'Occitane (our biggest holding in this area) reported an exceptionally strong finish to its financial year. It delivered impressive Q4 sales growth of 13%, and its FY margin is now expected to be over 12% (against previous guidance of c.10%). In tobacco, positive operational momentum continued. Imperial Brands's H1 results confirmed strong industry trends, a return to market share gains in its key markets as well as £3bn of debt reduction in the last 12 months – the latter point supporting the case for share buy-backs to resume. In beverages, Campari reported excellent Q1 sales growth of 18% despite many venues still being closed. Many of our portfolio holdings were able to continue investing through the Covid crisis, and this is leading to some very encouraging market share gains both through the many lockdowns but also as some markets begin to reopen. The outlook for many of the portfolio holdings therefore looks encouraging. The top three contributors in May were L'Occitane, Imperial Brands and Amorepacific; the top 3 detractors in the month were Clorox, Estee Lauder and Shiseido.
