

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

September 2021

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in September were down 1.25% in Euros, down 3.05% in USD, and down 1.04% in GBP. For the year, Class A units are up 7.66% in Euros, up 1.97% in USD, and up 3.38% in GBP.

September was the weakest month for equity markets since the start of the COVID pandemic back in March 2020. The fund declined by 1.25% in Euros, moderately better than the MSCI World index which fell by 2.35%. We were pleased to see our overall Asian Beauty basket of investments (c.20% of the portfolio) steady in the month in what has been a very volatile period for Chinese exposed investments. The ongoing drag from the State of Emergency in Japan has also been a notable headwind, but that should have passed as vaccination rates increase. We took the opportunity to catch up with our Asian Beauty portfolio companies, and some of their peers, to better understand the risks and opportunities from the latest Chinese government policies. The overwhelming conclusion is that the Beauty industry isn't reliant on demand from a few very wealthy consumers but is far more reliant on a vibrant and growing middle class, which the Chinese government is in fact trying to help prosper and grow. Recent events are also a useful reminder that appropriate risk controls around quality of product, diversity of channels, brands and price points all help to reduce volatility as consumer habits change. After a very strong recovery in H1, demand for beauty products in China was more subdued in September (and Q3 in general). We remain very excited about this part of our portfolio and its ability to capture the very attractive long-term beauty trend across Asia. The top three contributors in the month were Nomad Foods, Fever Tree and Campari. The top three detractors in the month were Beiersdorf, Amorepacific and Altria.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
